FERRAN MAYLINCH

DEVELOPER / TEACHER

ABOUT ME

I am a **full-stack/mobile** developer with **15+ years** of experience. Despite acquiring many skills throughout my career, I believe in **continuously** bettering myself and enjoy **learning** about new technologies on a daily basis,

As a programmer, I am **cooperative**, **disciplined** and aiming for the **highest standard**. I enjoy challenges and discussing different approaches to achieve the best result.

I believe in delivering products that are not only functional, but also well-structured, scalable and visually pleasing.

I also love **teaching programming** in my private academy codethen.com in my spare time.

TECHNOLOGIES

- **Languages:** Java, JS, Android, Swift, Obj-C, Kotlin, Scala, Ruby, Python
- **Frameworks:** Dropwizard, Spring, Play, React, Angular, ES6, node, jQuery, Sass, RoR
- **Databases:** MySQL, MongoDB, Hibernate, Redis
- **IDEs**: IntelliJ, Eclipse, AppCode, Atom, VS Code
- **Tools:** Git, Maven, Gradle, Gulp, Docker, Jenkins
- **Testing:** TDD, JUnit, TestNG, Mockito
- **Cloud Services:** AWS, Heroku, Firebase

LATEST RELEVANT POSITION

FULL STACK DEVELOPER AT GYMFORLESS

JAN 2014 - APR 2018, DEC 2018 - PRESENT

- Backend, web, mobile and dev-ops
- **Technologies**: Java, Android, JS, Objective-C, Swift, Dropwizard, MongoDB, RabbitMQ, Play framework, Angular, node, gulp, Heroku, AWS, Quartz, IntelliJ IDEA

EDUCATION

Bs & Ms in Computer Science University of Catalonia (UPC)
1997 - 2002

Five year long **studies** of computer architecture, maths, networks, programming, logic, algorithms, data structures, compilers and electricity.

SKILLS

- Ability to deliver quality results, as well as **clean** and well-structured **code**
- Strong interest in coding both as a job and as a hobby
- Confident working in a **team** as well as **independently**
- Contributed to open source projects, e.g. JSONModel
- **Created tools/libraries** to help me in my work, such as LayoutHelperApp or sql-to-mongo (see my GitHub)
- Worked as a **teacher**, in programming classes (Java, JavaScript, React)
